OUR MISSION

To provide direct and timely financial assistance, essential resources, and meaningful relief for Primary Producers across Australia impacted by drought and natural disasters.

Farmer Support

Our Purpose

Established in 2014, we provide disaster relief for primary producers.

How We Assist

Angels on the Phone

Our Angels on the Phone staff are here to bridge the divide between you and the help you need to ease the strain on home finances. These Angels on the Phone are farmers themselves, or have rural experience, which helps to understand what you are facing.

For assistance visit our website or give our Angels on the Phone team a call.

Angels on the Road

Our Angels on the Road team travel thousands of kilometres each year to personally deliver food hampers and care packs to farmers in need. While on farm they provide a listening ear and referrals to other support services to ensure all aspects of the farmer's health and wellbeing are being met.

Rural Day Off (RDO)

Clusters of assistance applications from one area often reveals a struggling rural community in great need of significant assistance. When this occurs we join forces with our corporate partners to deliver a Rural Day Off in that community. We bring together our farmers and their neighbours for a day of friendship and pampering, allowing them a day away from their farms so they can forget about their struggles.

We understand the toll and time it takes to recover from natural disasters so our message to farmers remains

"We won't forget you"
